

FUNC WALL/FLOOR MOTORIZED

Full access for everyone.

Func Wall/Floor Motorized is easy to adjust for different needs. The very stable design is perfect for large heavy displays and touch displays. The motorized height adjustment ensures that the user can interact with the display in an ergonomic position. The smart design shifts the weight to the floor, which means you can use a heavy display also on thin walls. A storage box for e.g. codec or laptop is included. The box can be locked with a padlock (not supplied).
