

**ONErack** patent pending

# Installation Guide

## Extra mounting rails

MNL-1RK-XTRA-RAIL v1.10

# Tools

Pozidriv® PZ2 crosshead screwdriver

## In the box

- 2 Mounting rails 
- 2 M3 bolt strips 
- 8 M4 screws 

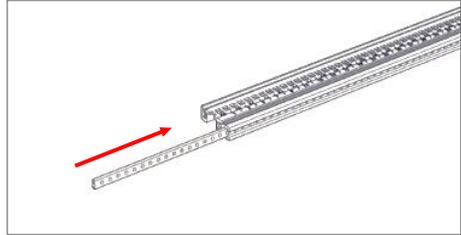

In the unlikely event that a component is missing or damaged, please contact [tech.usa@tvone.com](mailto:tech.usa@tvone.com) or [tech.europe@tvone.com](mailto:tech.europe@tvone.com)

# Installing extra rails

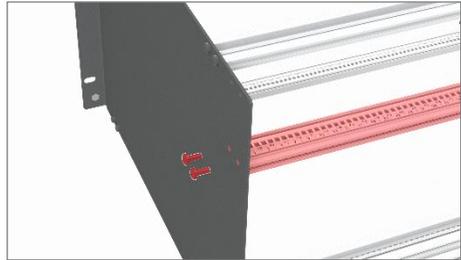

If your ONERack chassis is installed in a rack cabinet, remove it.

To avoid damaging your ONERack, build it in a clean, tidy area.

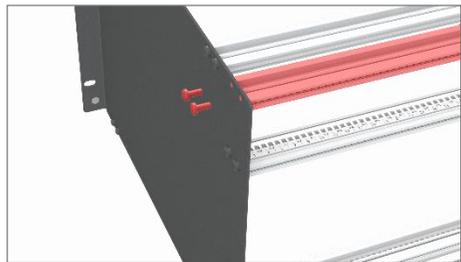

1. Slide an M3 bolt strip into each mounting rail, as shown.

2. Work from the rear of the chassis. Position the lower rail with the numbers facing upwards and the M3 bolt strip facing outwards. Use four M4 screws to connect the rail to the side panels.

3. Position the upper rail with the numbers facing downwards and the M3 bolt strip facing outwards. Use four M4 screws to connect the rail to the side panels.
