

Landscape Subwoofer Collection

Landscape Subwoofer Overview

Exterior systems hidden in flowerbeds, planters and other landscape elements allow an entire area to be filled with sound that appears to emanate from nowhere. The Seasons Landscape collection features several models created specifically for this purpose. Modeled after exterior lights or buried in the ground, these speakers will virtually disappear while producing jaw-dropping sonic performance.

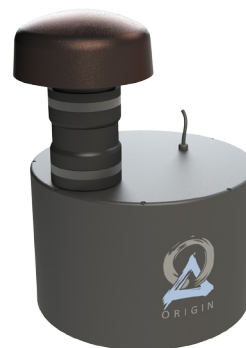

Subwoofers for music and home theater are commonplace. In the Landscape Collection this same technology has been converted to withstand the harsh realities of an exterior environment. Encased in high-density composite materials the enclosure is buried in the ground and ported to the surface through a tube that is carefully tuned to reproduce the deepest bass frequencies.

OSUB8

OSUB10

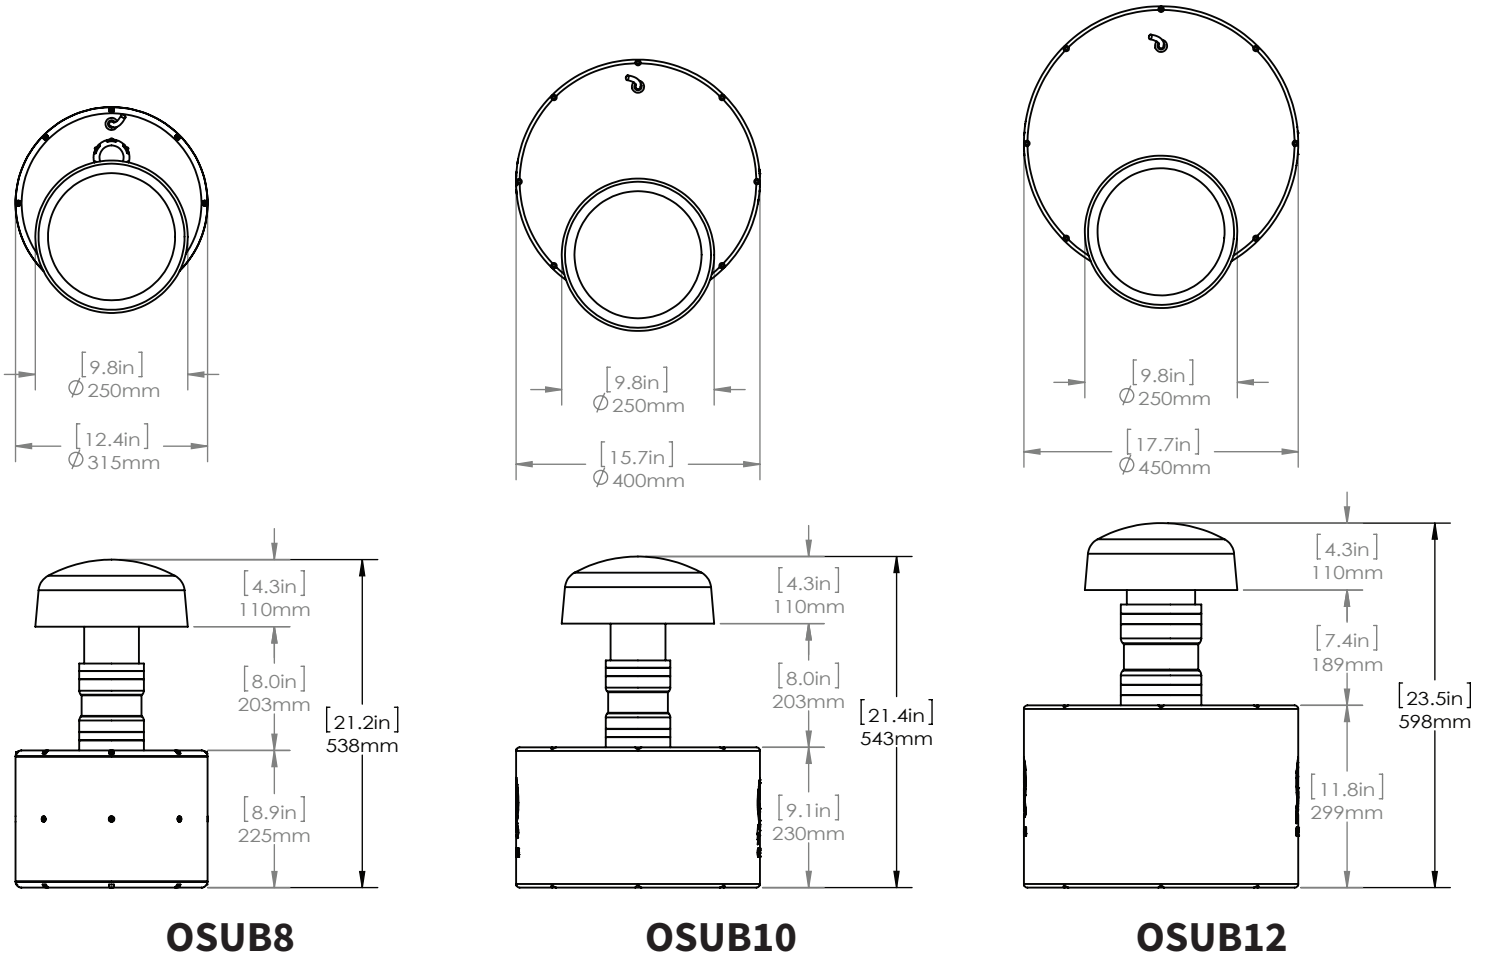

OSUB12

Features

- **Rugged Poly Composite Enclosure**
All OSUBs are built with materials to withstand the harshest weather conditions.
- **Designed for In-Ground Installation**
The minimalist design also comes with a paintable mushroom cap/port tube cover and allows Origin Landscape Series Subwoofers to blend seamlessly into diverse landscape environments.
- **Uncompromised Punch**
Origin OSUBs utilize the ground as a natural reinforcement to the enclosure increasing bass output--emulating the depth and clarity of an indoor environment.

Specifications

Model Number	OSUB8	OSUB10	OSUB12
Part Number	OSUB8000	OSUB10000	OSUB12000
Woofer Cone	Polypropylene	Polypropylene	Polypropylene
Woofer Diameter	8" (203mm)	10" (254mm)	12" (305mm)
Frequency Response	39Hz - 100Hz \pm 3dB	32Hz - 100Hz \pm 3dB	23Hz - 100Hz \pm 3dB
Transformer	70v or 8ohm, 60W	70v, 100W	70v, 100W
Size (WxHxD)	12.5x21.25x12.5" (315x538x315mm)	15.75x21.5x15.75" (400x543x400mm)	17.75x23.5x17.75" (450x598x450mm)
Enclosure	PolyComposite, weather and UV resistant enclosure
