

Connect to your world.

Combining precision control with ample power, this professional-grade processor stores macros and commands to deliver complete command over your environment.

The ProLink.r is PC programmable via Pro Control's wizard-based software, and communicates with the Pro24.r and iPro.8 remotes via one-way 433 MHz RF signal. Four integrated IR routing ports offer adjustable output strength. It also includes two voltage-sensing inputs for improved management of connected devices.

For even more control flexibility, the ProLink.r provides one-way LAN control via tablets, smartphones and PCs with an activated ProPanel app from iTunes®.

FEATURES

Supported remote control	Pro24.r and iPro.8
Support for iPad®, iPhone®, iPod touch® app	Yes LAN (1-way only)
Support for virtual PC control	Yes LAN (1-way only)
Support for 2-way feedback from compatible device	No
Integrated RS-232 ports	N/A
Ethernet control	Yes LAN (1-way only)
Ethernet for programming	Yes
Adjustable IR output strength	Yes
Integrated IR routing ports	4
Voltage sense inputs	2
Integrated RF control	1-way (433 MHz)
System commands and macro storage	Unlimited*
Integrated antenna	Yes
USB programming	Yes
Dimensions H x W x D (inches)	4.1 x 6.62 x 1.28

* Storage is only limited by available memory.
