

## VC-B11U

### Video Conference Camera

The Lumens® VC-B11U is a conferencing camera providing professional video quality with premier 4K ultra-high definition for video conference. With auto framing function, VC-B11U can automatically frame all participants in a perfect view for every meeting. Besides, the 120° field-of-view wide-angle provides an excellent visual collaboration experience. Thanks to its built-in two Omni-directional microphones, it can capture crystal-clear voice.

## Key Features

- Enjoy 4K UHD video calls with vivid facial expression and body language
- Hands-free auto framing to include all participants in the screen
- The 120° widest viewing angle won't miss anyone in your meeting room
- Dual microphones effectively capture human voice from every angle
- Compatible with Zoom, Skype, Microsoft Teams, Google Meet, etc.

Google Meet
