

COMM-TEC ON THE ROAD 2019

The COMM-TEC GmbH rolling exhibition stand is on tour again. The vans are on the road from the beginning of May until the end of October and make their way to you!

Uhingen, May 09th 2019

2 COMM-TEC vans – 9 countries – 22 weeks – more than 400 planned company visits – solutions, applications and demonstrations for dealers and end users!

Following the motto "Companies don't do business, people do", COMM-TEC GmbH will once again present its extensive product range to its dealer network in an appealing and solution-oriented manner in 2019.

Each year now since 2011, COMM-TEC has had a van on the road as a mobile exhibition booth on tour from April to October. Equipped with the latest product highlights, the van tour offers the opportunity to obtain exclusive on-site information on current solutions and technologies from the AV world. Most of the products are integrated as live applications and fully functional, so that interested visitors can inspect and test the equipment live at their premises. The tour will be accompanied by COMM-TEC product specialists and local sales staff, making their presentations in local languages. Entertaining and competent, they will present the devices and their specifications according to your wished and ideas.

Our roadshow highlights:

The ClickShare CSE-200+ and CS-100 Huddle from Barco, the RS series from Newline, digiTHIN from digiLED, the new PTZ camera from Lumens, PTZ solutions from Vaddio, AOPEN digital signage PCs, new players from the LS4 and HD4 series from BrightSign, professional displays from Bluefin with BrightSign built-in players. Room booking systems from Joan, EVOKO and ONELAN, live streaming solutions from Epiphan, thin e-posters from ZYGNAGE, digital signage display solutions from SWEDX and VESTEL, digital signal management from Gefen, signal transmission from WyreStorm, signal distribution with COMM-TEC DaisyNET II, control solutions from RTI, ceiling microphones from Sennheiser, indoor and outdoor speakers from Amina, Origin Acoustics and QSC, QSC Premium Business Music and QSC Q-SYS, racks and mounts from Middle Atlantic and connection solutions from Bachmann.

We would be delighted to welcome you on board for our roadshow.

Let us inspire you and experience our product highlights live!

About COMM-TEC

For more than 30 years, COMM-TEC GmbH has been one of the largest and most renowned value-add distributors for AV media technology in Europe. The company headquarters is located in Uhingen near Stuttgart and distributes the products of more than 40 well-known manufacturers. At the same time it develops in-house products under its own COMM-TEC label. The business units "Digital Signage + Media Solutions," "Presentation," "Signal Management + Conference + Control," as well as "Racks + Mounts" provide master technicians, system integrators and architects with the optimal hardware for their requirements. Of central importance here is the COMM-TEC slogan "Think Solutions": it creates a consciousness for thinking and acting in terms of solutions, and for offering solutions. COMM-TEC supplies everything from one source, from planning through consultation to implementation.
